18 May 2015

Dear Parent.

I wrote to you on 16 March explaining then that we had experienced enormous difficulty in trying to find alternative premises and alternative ownership of the Nursery having ourselves now almost completed 26 years.

In that letter, and in an announcement then made on the website, we asked for anyone to come forward who might be interested in securing the future of Montessori education in this area and of taking over our concern.

It is with huge regret that we must report that we have had no success in this search and as at this time we have nobody who is in the position of being able to take over our Montessori Nursery School: we must therefore inform you all that very sadly our nursery will close on Friday 3 July after our last Sports Day.

One couple of parents from our nursery, Stine and James Harrison, have indicated that they are keen to open up a “ Montessori Bambini” session at their farm from the beginning of September with the view then perhaps of opening a new Montessori Nursery in two years’ time. (Their contact details will be available on our website).

It is unfortunate that there will not be a Montessori nursery for those with a year or two more before going to “big school”. I wish them all the best wherever they attend. I believe they will have had a good grounding at Maidford.

We do hope to see you all at the Sports Day. We have been so grateful to you all – parents and staff – for your loyal support over the many years. We will then have the opportunity of thanking you in person and wishing you all the best for the summer holidays and for the future

With very best wishes,

**Fiona Godfrey**
