16 March 2015

Dear *Parent,*

Our Maidford Montessori Nursery School has been open for twenty six very happy years but the time has come for it to move to another home. Peter and I are not getting any younger and feel we need to hand over the nursery to someone more youthful.

We have for a very long time been searching, unsuccessfully, for alternative accommodation for the nursery. About four months ago, we thought we had found an ideal building. However, it is not to be. If anyone knows of an alternative venue, we would be very pleased to assist in any way we can in moving the nursery away from Rectory Farm. If this is not possible then, sadly, the nursery school here at Rectory Farm will close at the end of the Summer term 2015.

We have made friends with many of you over the years. Our Christmas Nativity plays and Sports Days have been very happy occasions. We have been fortunate to have had so many loyal, enthusiastic parents and caring, supportive members of staff. I thank them all for how they have helped "Maidford" to run so happily and smoothly.

Twenty six years of looking after other families' children has been a real privilege. We now want a little time to look after our own family's children – our fast growing number of grandchildren! We do hope that you will treasure the Montessori grounding that the children have been given in our nursery school. It is such an important start to learning that we all feel so passionate about.

With very best wishes,

Fiona
